

## Science Department Revision Guide

### GCSE Combined Science (Trilogy)

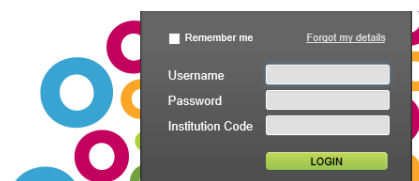

#### 1. Revision Materials

These may be ordered via the school's 'Wise Pay'. Students may collect their orders, on a Thursday at break time from the science technicians' office or at lunchtime from P22, by presenting the order form together with the Wise Pay number.

Details of revision guides, cards and exam practice workbooks are on the back page

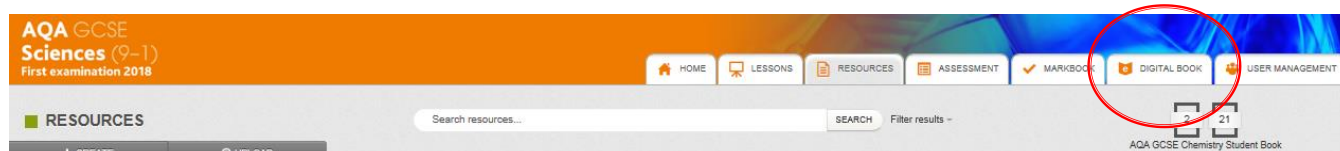

#### 2. Kerboodle Website

The science department have purchased an on-line learning resource for students. This may be accessed by visiting [www.kerboodle.com](http://www.kerboodle.com).

On the website there are

- The full suite of AQA 1-9 Science GCSE Digital Textbooks for Trilogy and Triple students.

- Resources for all units in Combined (Trilogy) and Triple (Biology, Chemistry, Physics) including worksheets which will give support, bump up your grade, animations, web-quests, maths skills, audio mp3s and "on your marks" exam type questions and answers to help with exam technique.
- Teaching staff may also set assessments on line.

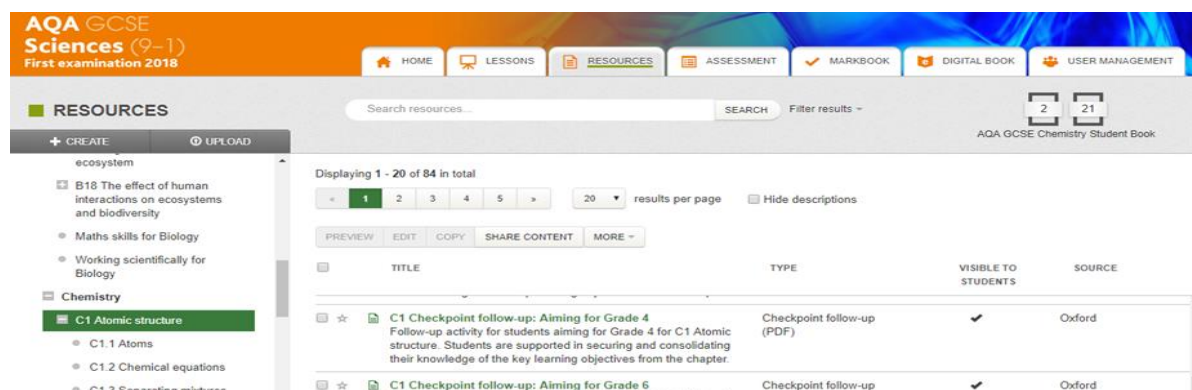

Students will need the following information: -

**User name:** - This is usually first initial plus surname (minus hyphens)

**Password:** - Initially set to the user name and students are asked to change this during first log-in.

**Organisation code:** - esm2

Class teachers can reset password or alternatively e mail [jchadwick@ndhs.org.uk](mailto:jchadwick@ndhs.org.uk)

An example of the Chemistry C1 Atomic Structure resources for students

Tips and useful information regarding Kerboodle will be posted on the notice board outside P21 classroom.

### 3. Google Classroom

Google Classrooms/websites have been set up for

- Biology GCSE revision (code **59uori**), New GCSE power points (code **yjsx3z**)
- Chemistry GCSE revision (code **5bffer**)
- Physics GCSE revision <https://sites.google.com/site/physicsatnotredamehs/home>

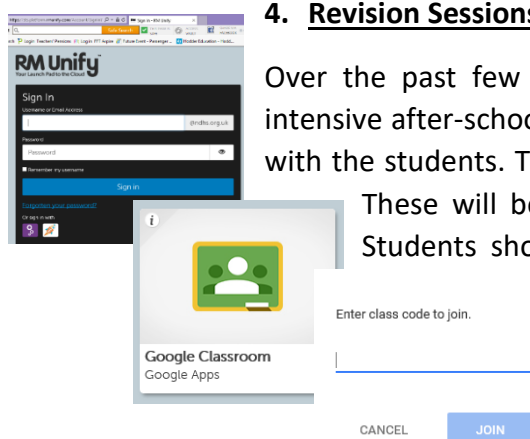

The Google Pages may be accessed via RM Unify and then by entering the Google Classroom from the user's home (NDHS) launch pad, followed by clicking on the + sign in the top right hand corner and joining the classroom by writing the code that has been given by the teacher. For the General Revision Google Classrooms the code is given above in red. Individual teaching staff have their own Google classrooms which students may be invited to join.

### 4. Revision Sessions

Over the past few years, the Science Department Staff have offered intensive after-school revision sessions, which have proven to be popular with the students. This year the focus will be on the Required Practicals.

These will be held on Thursdays after the February Half Term. Students should sign up for sessions as spaces will be limited.

Information will be posted on the notice board outside P20 classroom nearer to the time.
